Dear health professionals,

As president of the 2nd ALSEPNEO Latin American Follow-up Congress, I would like to give you a warm welcome and enthusiastically invite you to be part of this interdisciplinary meeting space for caregivers of high-risk babies and their families.

We have a program of academic excellence, with distinguished guests from Latin America and Europe, who will contribute with their knowledge and experience, and will share their effective early intervention projects that have improved the quality of life of many of our children.

We know that, in prevention, detection and intervention, it is never too early to detect a developmental risk and intervene, and we also know that sometimes we can be late. This is why, as members of different interdisciplinary health care teams in Latin America, we try to use the most effective strategies, we feed on evidence-based clinics, and we share and update strategies that allow us to enhance the comprehensive development of our at-risk infant populations and their families.

We share an ethical obligation and a tireless commitment throughout Latin America to create efficient solutions, and as a meeting space ALSEPNEO aims to facilitate our objectives of reducing the evident inequality

in health care in our different regions, and of understanding and supporting our patients not only in their biological health, but also in their cognitive, social and emotional areas.

Let us always remember that the babies we care for are biopsychosocial beings, who have affection, expectations of being understood and supported, who enjoy feeling loved and also suffer when they have to face difficult early experiences. From the interdisciplinary dialogue and understanding of the relationships between physical, mental and socio-emotional development, we will broaden the understanding we have of our patients and we will be able to offer them a more consistent and effective accompaniment space.

We are waiting for you between May 18 and 20, 2023 in our beautiful united cities of Valparaíso/Viña del Mar, coastal with beautiful gardens and beaches, being Valparaíso, known as the port city of "multiple colors" and a World Heritage Site. We will meet, learn, talk and enjoy. And we leave you specially invited to our pre-conference workshops.

Jorge Bustamante MD
President 2nd Congress
ALSEPNEO

Pre-Conference Workshops

Limited places

ADBB Training with certification from ASMI España

May 16 and 17 - Andrés Bello University
Moderator: Jorge Bustamante MD (Chile)

General Movements: theoretical framework and practical elements. Valparaíso University

May 17, 8 a.m. to 12 p.m.
Moderator: Mónica Morgues MD (Chile)
Speaker: Juan Guillermo Poblete PhD (Chile)

Kangaroo Mother Care, Valparaíso University

May 17, 2:00 p.m. to 6:00 p.m.
Moderators: Ángela Lombo MD (Colombia), Martha Cristo PhD (Colombia), René Barrera Reyes MD (México)
Speakers: Alexandra Jiménez Luna PhD, Julietha Castro MD, Martha Cristo PhD

Thu May 18

08.30 am. Opening ceremony

09:00 am. Sensitive and early monitoring of High Risk Families

Moderators: Lidia Giudici MD, Angela Lombo MD

Butterfly project. How to implement it?. Nicholas Embleton MD

Human milk donation in baby loss context. "Memory Milk Initiative" Caregiver care. Nicholas Embleton MD

TOP program. Aleid Leemhuis MD (online)

10.35 am. Perinatal Mental Health: pillar of child development and well-being

Moderators: Marta Cristo PhD, Jorge Bustamante MD

Putting physical and mental health together in the newborn. Gabriela Muniagurria PhD, Martha Cristo PhD.

Family Mental Health during Covid-19 Pandemic, coping strategies. María Marta Panniza PhD, Francisca Velozo PhD, Juliana Medina PhD.

Parenting a high risk newborn, cross-cultural study. Rosalía Jiménez PhD, Martha Cristo PhD.

12.30 pm. High-risk child mental health

Moderators: Martha Cristo PhD, Giovanni Mague MD.

Attention deficit and hyperactivity disorder. Virginia Kanopa MD.

Autism Spectrum Disorder. Verónica Jara MD.

Oppositional/defiant behavior. Marta Piasco MD.

Symposium 1pm to 2pm

Symposium ALSEPNEO Monitoring Database

Modetator Mónica Morgues, MD

Update on Preterm births in Latin America

Oswaldo Revelo, MD

02.00 pm. Ethics, palliative care and quality of life

Moderators: Yanira Madariaga MD, Paula Gajardo MD.

Ethics, palliative care and bereavement: quality of life. Sergio Alunni MD.

Ethics in the care of children with SHCN. Alejandra Sanchez MD.

03.00 pm. Neurodevelopment

Moderators: Carolina Serrano MD, Romina Esponda MD.

Neuroimaging. Monitoring utility for follow-up. César Sánchez Acosta MD

Follow-up after Therapeutic Hypothermia for Hypoxic Ischemic Encephalopathy. Rita de Cássia Silveira MD

Nutrition tips in neonatal encephalopathy. Carolina Serrano MD

04.35 pm. Conference Age correction up to 5 years old in neurodevelopmental assessment: a new standard?

Moderators: Gabriela Bertani MD, Gabriela Bazán MD

Speaker Aleid Leemhuis MD (online)

05.15 pm. Discussion of selected scientific papers

08.30 am. Healthcare in Follow-up and caregivers

Moderators: *Cecilia Reyes PhD, Cecilia Moraga PhD*

Strengthening the link between NICU and Follow-up clinic. Sergio Alunni MD.

Education in the NICU to develop parental skills in the care of their babies with complexities. Jovita Plasencia PhD

Role of the Nurse and Midwife in the interdisciplinary team. Ana Perelli PhD

Sudden collapse on skin-to-skin contact. Available evidence. Virginia Kanopa MD

10.00 am. Conference Perinatal interventions and long-term results.

Moderator: René Barrera Reyes MD

Speaker Aleid Leemhuis MD (online)

10.40 am. Break

11.00 am. Rehabilitation Therapies Pros-Cons Bobath / Vojta / Katona

Moderator: María del Pilar Ibarra Reyes MD

Bobath therapy. Marcela Amado MD.

Vojta therapy. Verónica Delgado MD.

Katona Neurorehabilitation Model. Thalía Harmony Baillet MD (online)

Symposium 12.30pm to 2pm

Academic Presentation. Book: Pediatric Network #5

Moderator: Prof. Dr. Juan Reichenbach.

Participants: Lidia Giúdice MD, Mónica Borile MD, Ana Sepúlveda MD, Alina Guarino MD, María Gabriela Bonta MD, Mario Rovere MD and ALSEPNEO Authorities.

Conference Why is it important to recognize and sift social withdrawal in infants? Recent Advances.

Moderator: Jorge Bustamante MD

Speaker: Anthoine Guedeney MD

01.00 pm. SYMPOSIUM

02.00 pm. Conference Social Determinants of Infant Health: Focus on High-Risk Newborns.

Moderators: Lidia Giúdice MD, Ana Lucía Diez Recinos MD

Speaker Juan Reichenbach MD

02.45 pm. Conference Low resource settings - Equity Approaches.

Moderator: Mónica Morgues MD

Speaker Pablo Durán MD

03.30 pm. Break

03.45 pm. Kidney health monitoring

Moderator: Richard Baquero MD

Protection of kidney development during childhood. Ricardo Guerrero MD.

Renal function care in pregnancy and pregnant adolescents. Ana Lucía Diez MD.

Blood pressure monitoring in Pediatrics. Adriana Iturzaeta MD.

Nutrition and physical activity to support kidney function in children. Pahola Atehortúa MD.

05.15 pm. Conference Advances in protective nutritional strategies for long-term neurodevelopment.

Moderator: María Josefa Castro MD

Speaker Nicholas Embleton MD

06.30 pm. Discussion of selected scientific papers

Sat May 20

08.00 to 10.10 am. ADBB Symposium

Moderator: Antoine Guedeney MD

Detection of withdrawal and promotion of social skills in infants during pediatric follow-up. Nahir Bonifacino PhD, María Nauar MD, Germán Lezama MD, Natalia Llanugo MD, Andrea Plevak MD, Andrea Pijuán MD, Claudia Caramori MD, Karla Larroca MD, Virginia Flores MD, Giovanna Gonella MD, Patricia Laje MD and Laura Cetraro MD

Assessment of social withdrawal in infants with underlying organic disease. Carla Perez PhD
Prevalence of socioemotional withdrawal in primary care setting in Argentina. Guido Luppi MD
ADBB Chile Program: detection of alarm signs in premature babies. Marcela Perez MD, Jorge Bustamante PhD, Marcela Diaz MD.

08.30 am. Cerebral Visual Deficit. Diagnostic and Therapeutic Approach

Moderator: Vanina Schbib MD

What is Cerebral Visual Deficit? Global and Regional Incidence and Prevalence. Normal brain development. Vulnerability. Damage. Risk factors. Vanina Schbib MD
What and how does my child see? Types of cerebral visual deficits. Luz Gordillo MD
Forms of presentation. Complementary diagnostic studies. Juan Carlos Juarez MD
Comprehensive Therapeutic Response. Medium and long-term interventions. Approach to functional diversity. Marta Ferrero PhD, Susana Pereira PhD, Liana Magariños PhD

10.00 am. Nutritional Challenges in the Follow-up of High-Risk Newborns in Latin America

Moderators: Rita De Cássia Silveira MD, Ingrid Lizama MD

Day-by-day prevention of postnatal malnutrition: Importance of the growth curve. Carmen Vecchiarelli MD.

Nutritional objectives in the short, medium and long term care. Rita De Cássia Silveira MD
Human milk and breastfeeding: Milk banks and donor milk. Human milk fortification. María Josefa Castro MD.

10.00 am. Families's Workshop

11.40 am. Nutritional Health and Follow-up

Moderators: Florángel García MD, Alejandro Maccarrone MD

Healthy nutritional facts in Follow-up. Irene Strasnoy MD

Interdiscipline: Nutrition/feeding monitoring. Mónica Trovato PhD

12.40 pm. Conference Digital Transformation in Health.

Moderator: Karla Zambrano MD

Speaker Vanina Schbib MD

01.20 pm. Break

02.20 pm. Debate Prematurity and Vision, in Networks

Moderator: Alejandro Vazquez de Kartzow MD

Transition and Vision in Prematurity - Images and Vision - Follow-up drop off and subsequent problems

Experts Andrea Zin MD, Joao Borges Filho MD, Luis Porfirio Orozco MD, Luz Gordillo MD, Pedro Acevedo MD, Julio Urrets Zavalía MD, Juan Carlos Juárez MD, Celeste Mansilla MD, Brenda Peña MD, Vanina Schbib MD, Gabriela Saidman MD, Guillermo Monteoliva MD

03.50 pm. Hearing health

Moderator: Ingrid Klenner MD

Hearing Impairment: Overview and risk factors. Speech- Language Pathologist Felipe Retamal PhD

Diagnostic Stages. Hearing survey in Latin America (ALSEPNEO Hearing Health Group) Speech- Language Pathologist Ingrid Klenner PhD

Therapy for Hearing Impairment. Speech- Language Pathologist Claudia Sepúlveda Caro PhD

05.00 pm. Closing Ceremony. ALSEPNEO Awards

Families's Workshop

Sat May 20

10 am Cardiopulmonary Resuscitation (CPR) workshop - online

Moderators René Barrera Reyes, MD (México) and Lucrecia Bossi, MD (Argentina)

Welcome

Introduction

CPR for children under 1 year of age. René Humberto Barrera, MD

CPR for children older than 1 year. Lucrecia Bossi, MD

Questions and answers session

Closing

11.30 am Workshop: The voice of families - online

Moderator AIPREM Alianza Internacional por los prematuros (International Alliance for Preterm Babies)

The voice of families

☆☆ Paola Cofiño y Danny Schwank. Asociación Red de Apoyo a Padres de Prematuros. RAPP. Guatemala.

☆☆ Andrea Milgron. Aupaprem. Uruguay.

Survey of the experience of premature fathers in Latin America

☆☆ Cynthia Delgado. Fundación Nicaragüense por los Prematuros.

☆☆ Nelly Vergara. Prematuros Extremos Ecuador.

☆☆ Nathalia Figueroa. Fundación Red Sanar. Colombia.

Webinar: Speakers from parents of premature children organizations in Latin America

☆☆ Nelly Vergara. Prematuros Extremos Ecuador.

☆☆ Viviana Fernandez. Fundaprema. Costa Rica

☆☆ Cynthia Delgado. Fundación Nicaragüense por los Prematuros.

☆☆ Andrea Milgron. Aupaprem. Uruguay

☆☆ Paola Cofiño. Raap. Guatemala.

☆☆ Nathalia Figueroa. Fundación Red Sanar. Colombia.

Symposium

Symposium A
Sponsor Astra Zeneca

Online - On demand

Palivizumab: A Latin American perspective. How prepared are we against VRS?

Speaker: Soledad Montes, MD
Pediatric Pulmonologist
Head of children's bronchopulmonary unit Hospital La Florida
Coordinator Palivizumab Hospital La Florida
President Chilean Society Pediatric Pneumology

Symposium B
Sponsor Becton Dickinson

Online - On demand

Timely diagnosis of respiratory infections

Speaker: Leticia Sollano, MD
Pediatrician, neonatologist, teacher of Science, Vaccines and Public Affairs
Neonatal Intensive Care Unit, Research Coordinator and Head of the Neonatology Service at the CMN 20 de Noviembre of ISSSTE, Deputy Director of Liaison at the National Institute of Perinatology.
Opinion leader in the area of vaccines for more than 15 years.
